

Todotix Magento 1 Payment Extension

Installation:

- Download the file:
https://drive.google.com/drive/folders/1Ha2K3ZHNUuYYVHn2y_kKaKqdkRXDdmn_?usp=sharing
- Log in to Magento Ecommerce admin.
- Navigate to System => Magento Connect Manager
- Browse the Todotix Magento Extension Package **Todotix_Pay-1.0.0.tgz** received.
- Click the upload button to install the extension.
- Wait till you get the successful installation notification on the console as
**“Package Installed:
community Todotix_Pay 1.0.0”**
- Click the Refresh button underneath the console to finish.
- In the top of Magento Connect Manager, click the Return to admin button.
- Navigate to System => Cache System and clear the Magento Cache.
- Log out and log in back into Magento to reload any access rules for the backend and prevent a potential “Access Denied” error on newly added admin areas that you haven’t been granted access to. Logging back in with a full administrator account will grant you the new permissions required.

The screenshot displays the Magento Connect Manager interface. At the top, the logo reads "Magentoconnect MANAGER". Below the logo, there are tabs for "Extensions" and "Settings", and links for "Return to Admin" and "Log Out". The "Settings" tab is active, showing a "Settings" section with a checked box for "Put store on the maintenance mode while installing/upgrading/backup creation" and an unchecked box for "Create Backup" with a dropdown menu set to "Database". Below this is the "Install New Extensions" section, which includes a step-by-step guide: "1 Search for modules via [Magento Connect](#)." and "2 Paste extension key to install:" followed by an input field and an "Install" button. The "Direct package file upload" section is at the bottom, with a step-by-step guide: "1 Download or build package file." and "2 Upload package file:" followed by a "Browse..." button, the text "No file selected.", and an "Upload" button. The "2 Upload package file:" section is highlighted with a red border.

Manual Installation:

- Extract the Magento Extension Package **Todotix_Pay-1.0.0.tgz** received.
- Navigate to your Magento root folder.
- Upload the previously extracted/unzipped files from your local computer to your Magento root folder.
- FTP software prompts you saying files already exist, click overwrite to all. It will not harm any existing files. It would just merge the new extension files to the server.
- Log in to Magento Ecommerce admin.
- Navigate to System => Cache System and clear the Magento Cache.

- Log out and log in back into Magento to reload any access rules for the backend and prevent a potential "Access Denied" error on newly added admin areas that you haven't been granted access to. Logging back in with a full administrator account will grant you the new permissions required.

Las recaudaciones de los distintos canales de pago pueden aparecer en su extracto o detalle como Todotix, Todotix SRL o Todotix 3D. PagosTT, Cuentas365 y TuTienda365 son productos de Todotix SRL.

The browser's taskbar at the bottom shows the Windows search bar, taskbar icons for various applications, and the system tray with the date 20-04-2020 and time 01:03.

- After payment is successful in the gateway, it will redirect to the callback URL we sent to gateway while creating the transaction.
This callback URL will handle the response received from the gateway. Based on the response, we will update the order status as processing or cancel the order.
After order is canceled, they will be redirected to the checkout page again and if order is successful then they will be redirected to the success page.
